Whole Person Treatment Planning

Each individual is supported in a caring environment by onsite, interdisciplinary teams; each person works with professionally trained and certified staff, a primary care physician, and psychiatrist.

We help with:

- Assisting clients with obtaining support, such as custom wheel and power chairs
- Prosthetics
- Ankle Foot Orthosis (AFO)
- Complex Wound Care Services
- Hospice Care

Length of stay may be just a few months or much longer. MADU Uptown works with community health partners to provide support for residents who are able to transition to supportive and independent living programs.

Medical and Restorative Services

Individual treatment plans are developed to provide an array of necessary medical supports.

We support individuals with:

- Orthopedic Needs
- Neurological Conditions
- Acute Strokes
- Cardiac Conditions
- Parkinson's
- COPD/Pulmonary
- Post Covid Rehabilitation

We provide:

- Speech Therapy
- Occupational Therapy
- Physical Therapy
- Psychosocial Recovery Services

“Being here has given me a better outlook on life. MADU Uptown has helped me become healthy and strong.”

—UPTOWN CLIENT

Community at MADU Healthcare Uptown

Caregivers provide each resident with a sense of belonging, individual attention and exceptional care:

- 3 daily meals offered in the dining room or in individual rooms
- Onsite rehabilitation gym
- Small private park
- Activities and special events providing community connection with peers

Uptown's onsite gym space offers convenient rehabilitation and physical therapies.
